Our race this year had a 2 week postponement, but we still ended up with low water which meant the race was held downstream in the Lagoon. The weather was beautiful. It was sunny and near 70° F, but it was very windy making some sections difficult for paddlers.

The race committee thanks you all for coming out to our race this year. Maybe next year we will have it all. Good water flow in river, sunny skies and lots of contestants. Please tell your friends about the race. This year we only had 60 contestants. We need more participants to keep this event going year after year.
